

# Evolving Solutions

**W**ater treatment has significant impact on the longevity of facilities, product quality and, ultimately, profitability. Fontus Water Limited is a leading specialist in providing sustainable solutions for water & wastewater management. Our proven and unmatched technologies help our customers from the industrial, buildings and the government segments to have high precision systems and products for their facilities.

With almost a decade of experience in water treatment, Fontus has a thorough understanding of customized designing and project implementation. Supporting our integrated solutions, we provide customers a diverse range of packaged systems, consumables, spares and Operations & Maintenance services. As India's only ISO 9001:2000 certified company in the water industry Fontus is the most trusted partner for meeting all your water & wastewater needs.

Believing in the value of great service and customer satisfaction Fontus ensures you receive round the clock services as our customer. From the initial designing to the final commissioning, our highly skilled team provides on-hand advice, training and services that fit individual requirements

#### **USE OUR EXPERTISE..**

The Proposal engineering, detailed engineering, project management and sales department of Fontus comprises a team of highly trained engineers and water specialists. With rich experience in various areas of water and wastewater, our engineers implement designing, installation and commissioning of plants for diverse customer segments.

Our experience and expertise enables us to provide latest treatment technologies in custom solutions that are flexible and upgradeable and perfectly attuned to your production needs. Our range of solutions include:

- ▶▶ Turnkey Projects
- ▶▶ ERGO Packaged Systems
- ▶▶ Consumables & Services

In the industrial, building & government segments, water quality and quantity corresponds the need of respective applications or processes (drinking, cooling, boiling, power generation etc). Fontus has profound understanding of designing water & wastewater treatment systems tailored to our customer's requirements. A blend of our experience and exposure to quality assurance practices by various consultants helps us meet all your quality expectations.

### **TECHNOLOGICAL SOLUTIONS FOR INDUSTRIES & GOVERNMENT BODIES:**

#### **Process Water & Wastewater Treatment**

- Filtration Plants • Softening Plants
- Demineralization Plants • RO Plants • Iron Removal
- Sewage Treatment • UF Tertiary Treatment

#### **Boiler / Cooling Water Treatment**

- Specially Designed RO Plants • Filtration Plants
- Softening Plants

#### **Specialized Systems**

- Augmentation of Recycle Systems
- Specialized Media Filtration for SDI & Biological Control
- Treatment Cost (Rs/m<sup>3</sup>) Reduction • UF Systems

### **INTEGRATED SOLUTIONS FOR BUILDINGS SEGMENT**

#### **Drinking Water Treatment**

- RO • Ultraviolet • Other Disinfection Systems

#### **Filtration**

- Dual Media Filters • Pressure Sand Filters • Iron Removal

#### **Sewage Treatment**

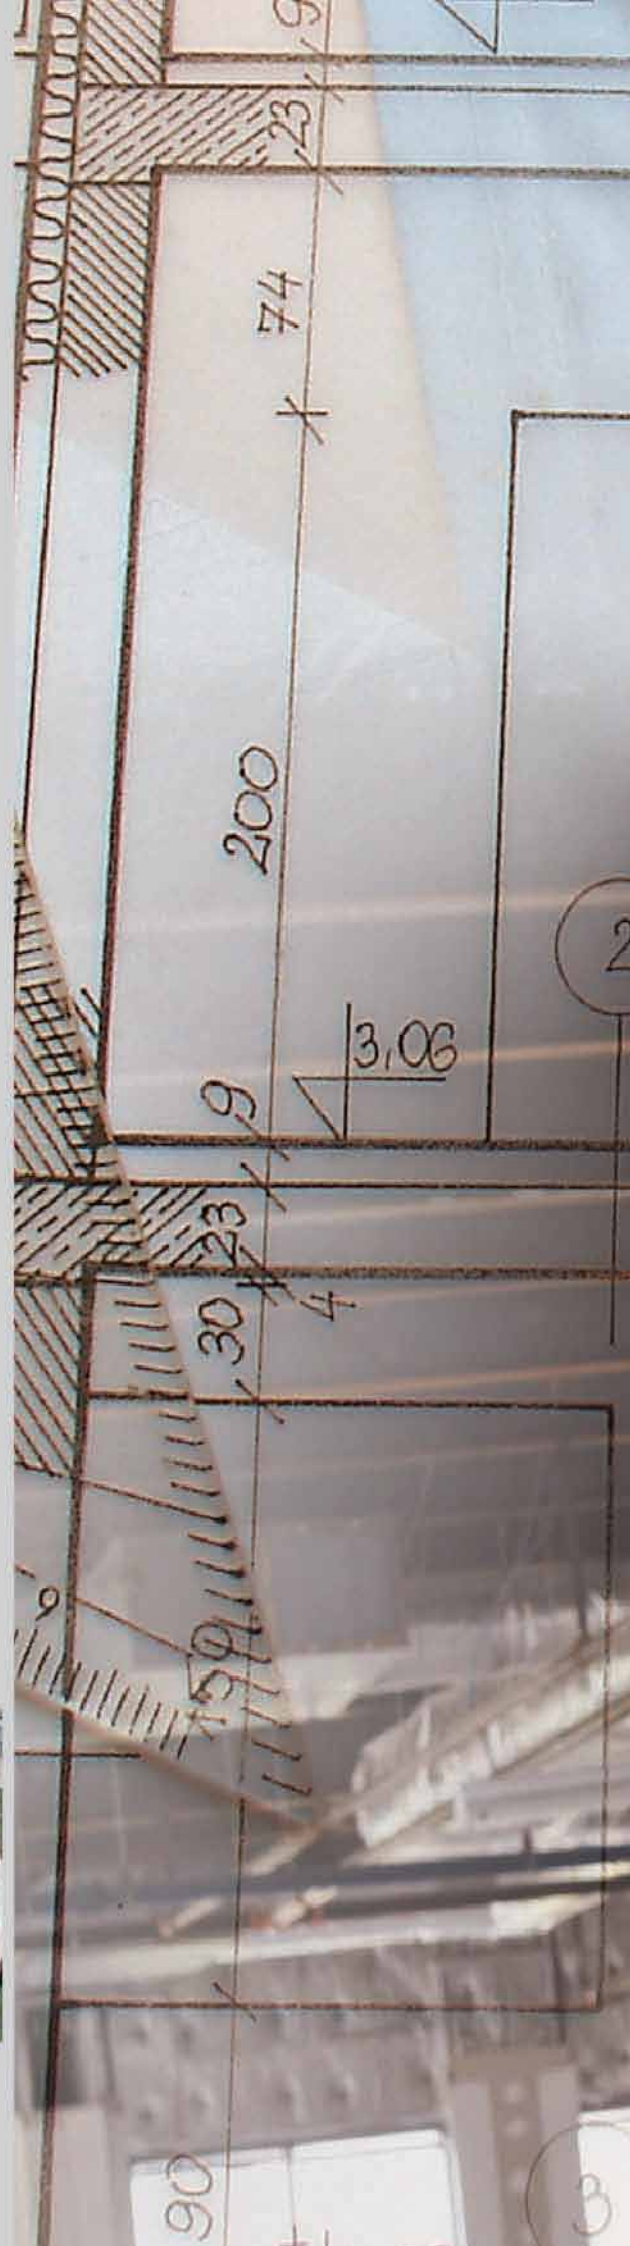

- SAFF • MBBR • MBR • SBR • Based System

#### **Hydropneumatic Systems**

- Pressure Tank Based Systems • VFD Based Systems

#### **Softening Systems**

- Manual • Automatic

## Turnkey Projects

ERGO Systems by Fontus Water provide solutions that supply high quality water for a gamut of applications so you can constantly maintain high standards throughout the production process. Our off-the-shelf, pre-packed and commissioned systems for water and wastewater treatment, reuse & recycling are applicable for industrial and buildings segments. Fontus also offers custom solutions that are flexible and upgradable; and perfectly attuned to your specific needs.

ERGO Systems having high-end ergonomic design with minimum footprint, maximizes convenience. The best-in-class quality helps protect your high-value assets, minimize maintenance, save energy and enhance product quality. Our leading chemical, filtration and separation systems have a rich history of results in water applications. The range includes:

- ▶▶ Filtration
- ▶▶ Softening
- ▶▶ Demineralization
- ▶▶ Reverse Osmosis
- ▶▶ Grey Water Treatment
- ▶▶ Sewage Treatment
- ▶▶ Hydropneumatic

**Packaged Systems**

With its Chemical & Filtration division, Fontus adds diagnostic and predictive tools that let your systems operate proactively. Simply stated, we deliver products and services that make your products better and your operations more efficient. Our series of consumables prevent corrosion, bacterial deposition, fouling, scaling & stress cracking. The range includes:

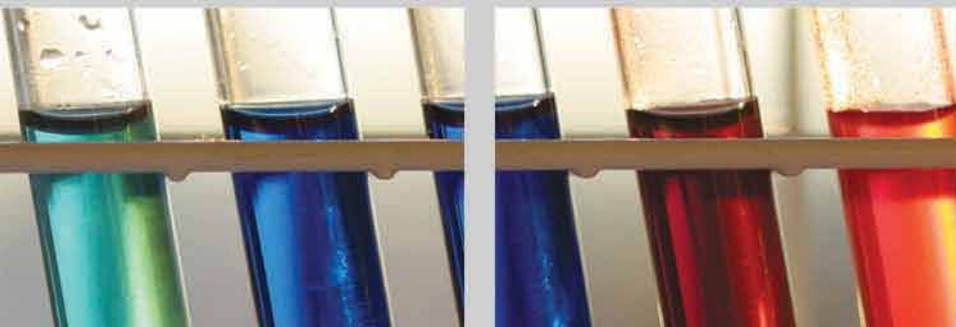

- ▶▶ Water Treatment Chemicals
- ▶▶ Ion Exchange Resins
- ▶▶ Filter Media
- ▶▶ RO Additives ..and more

We offer high precision equipments in numerous configurations that help you choose spares meeting your needs and budget. Amongst others, we provide:

- ▶▶ Membranes
- ▶▶ Filter Cartridges
- ▶▶ Housings
- ▶▶ Dosing Pumps ..and more

Our decade old experience can help solve the most complex servicing problems in less than no time. Depending on the size of your project, technology & infrastructure involved, our nationwide service team identifies operational bottlenecks and provides on-site support for:

- ▶▶ Operations & Maintenance
- ▶▶ Annual Maintenance Contracts
- ▶▶ Service On-Call / Troubling Shooting / Breakdown Services

**Consumables, Spares & Services**

### MAXIMUM UPTIME & PEACE OF MIND...

As the market leading experts in Water Treatment, we offer better resource, infrastructure and support than anyone else. A big part of our success is our intrinsic understanding of just how important locally focused support is. That's why our customers get the best of both worlds; all the cost savings and logistics resources of a corporate organization combined with a localised, uniquely tailored service that provides unrivalled support when needed. We provide expertise in:

- ▶▶ Design of the entire water treatment line
- ▶▶ Component Supply
- ▶▶ Installation & Startup
- ▶▶ Quality control
- ▶▶ System & Product Training
- ▶▶ Operation & Maintenance
- ▶▶ Troubleshooting
- ▶▶ Breakdown Services

### WITH YOU AT EVERY STEP..

At Fontus Water we put our customers first. We believe in delivering an "End to End" service and customer support, which means every customer, gets the help they need, when they need it. Each customer is unique and important. With this in mind, we ensure the same level of customer commitment and support to all applications, industries and businesses. Our 24x7 customer service team is spread across the country to provide unrivalled support when needed.

### KEEPING UP WITH THE TECHNOLOGY...

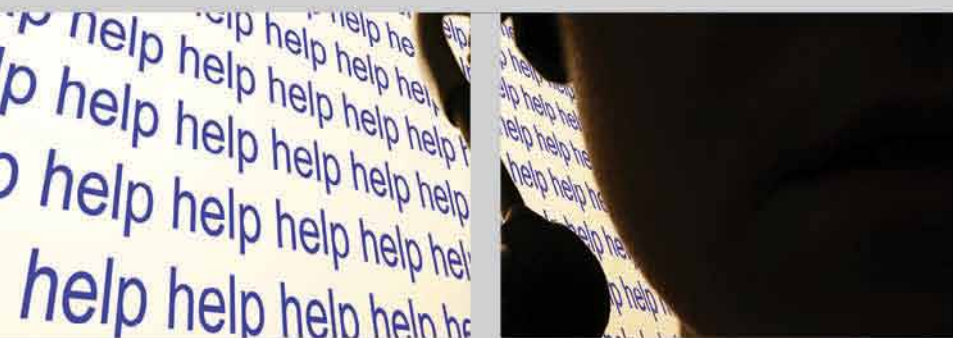

Due to the functional complexity and compliance aspects of water treatment, training is advisable to ensure devices are used properly. As part of our customer commitment Fontus offers a unique service of training courses that ensure our customers feel confident about using our products and systems.
